Selection Process (Online/Virtual)

Our selection process includes multiple stages such as an online MCQ test, a coding assessment, and virtual interviews—each designed to evaluate your analytical thinking, logical reasoning, problem-solving abilities, and communication skills.

Requirements (Read carefully) -

- Please ensure you have a stable internet connection and a reliable electricity backup throughout the test.
- Kindly keep your camera on at all times during all the tests, as it is a web-proctored exam. It is mandatory to have a webcam or an in-built camera in your system.
- Only those candidates who clear the test will be contacted via email for the next round.
- A properly working laptop is required for the entire interview process.
- **Note: Our hiring process is unique and includes multiple screening rounds. We kindly request applicants to refrain from follow-ups via email or social media, as all necessary updates will be shared in due course. Results for each round will be communicated to candidates as and when required.**
- **The batch will be onboarded 5th October 2026.**
